

▶ PROTECTING WORKERS AROUND REELS

JENNIFER BRAUN, MARKETING MANAGER, REELCRAFT

Workplace safety is a primary focus of many companies these days. A safe workplace not only protects workers from injury, it can also lower costs, reduce absenteeism and turnover, increase productivity and quality, and raise employee morale. Plus, protecting workers and ensuring that they have a safe workplace is the right thing to do.

Reelcraft's hose reels can help make the workplace safe and more efficient. Spring driven reels provide an easy and convenient way to store expensive, long lengths of hose off floors and out of the way. Hoses stored on a reel can reduce wear and tear considerably and increase the hose life by up to five times longer. In addition, a hose on a reel decreases the chances of injuries from tripping hazards, which saves lost work time and expenses.

With safety in mind, Reelcraft released our new

Series RS7000 REELSAFE controlled return hose reels. The Series RS7000 was designed on the industry leading Series 7000 platform which is one of our most versatile, heavy duty reels available. REELSAFE pays out like a traditional reel, though it is specifically engineered to retract the hose at an average walking speed of 2 to 3 miles per hour. The centrifugal clutch, integral to the reel base, greatly decelerates the hose retraction speed by up to 83% vs. a Series 7000 reel. The clutch ensures a consistent retraction speed regardless of fluid or environmental temperatures.

REELSAFE safely protects workers and equipment should the hose accidentally be released by the operator, especially from longer distances. As a best practice, Reelcraft always recommends walking the hose back onto any spring driven hose reel.

NEW PRODUCT ANNOUNCEMENT

EPSON[®]
EXCEED YOUR VISION

MORE HUSTLE, MORE MUSCLE.

Say hello to a new era of high-speed, high-volume industrial label printing.

INTRODUCING THE LW-Z5000PX & LW-Z5010PX

KEY FEATURES & BENEFITS

- Print high-volume label batches fast (up to 50mm/sec)
- Choose any label width you need (from 1/6" to 2")
- Use 147' bulk roll tape for high-volume batch printing
- Load bulk label supplies and ribbon in one quick step
- Save money with lower cost-per-label compared to competing printers
- Use any existing Epson LabelWorks PX cartridges for short runs

Sell an industrial label printer brand you can trust. No direct competition, attractive margins, and proven demand. LabelWorks.Epson.com/Easy

A VIRTUAL *California Dream*

44TH ANNUAL
STAFDA CONVENTION
& TRADE SHOW

**AN UNCONVENTIONAL
CONVENTION
NOVEMBER 9-10
FROM YOUR HOME OR OFFICE!**

THE LOW DOWN:

STAFDA's RAD GENERAL SESSION

Features Guy Kawasaki, a Silicon-Valley based author, speaker, entrepreneur, and tech evangelist.

VIRTUAL BOOTH TRADE SHOW

Get the 411 on the newest products from STAFDA manufacturers with special pricing and other incentives!

BONE UP AT OUR EDUCATIONAL WORKSHOPS

Our business brainiacs will discuss accelerating your competitive edge, distributor marketing, and of course, Alan Beaulieu's Economic Forecast.
