Industrial Supply

WE KNOW THE BUSINESS

Industrial Supply's veteran staff has been serving the industrial supply channel and building relationships and mutual trust for two decades. Distributors, reps and manufacturers know they can count on us for information that can have immediate impact in their businesses in these ever-changing times.

Our writers — with longstanding relationships with ISA, NAHAD, PTDA, STAFDA, industry buying and marketing groups, and consultants — provide the best, most timely, most valuable information in the channel for our readers.

WE KNOW THE PLAYERS

Industrial Supply and its sister magazine, **Contractor Supply**, have the supply channel covered. Whether your products and services are destined to end up in products or in the plants that manufacture them, our magazines and digital products will get you in the door and into decision-makers' hands.

- **Industrial Supply** serves 29,000-plus industrial distributors and independent manufacturer reps in the United States
- **Contractor Supply** reaches 21,000-plus construction equipment, tool and supply distributors, manufacturers and rep agencies

Need to reach both markets? Combine them and earn volume discounts.

WE HAVE THE RELATIONSHIPS

We publish the member directory for the **Specialty Tools & Fasteners Distributors Association (STAFDA)**.

Our longstanding relationship with this leading distributor association demonstrates STAFDA's trust in our ability to produce products to the highest standards of quality and integrity. You can trust us to do the same for you.

No other media group in our industry can match this claim.

ACCEPT NO SUBSTITUTES

Rich Vurva, Patricia Wolf, Chris McClimon and Tom Hammel have 100-plus years of combined experience serving the construction and industrial supply markets.

- We are the industry's most recognized and respected professionals.
- Our contributing writers and consultants and advertisers are the best of the best.
- Industry professionals rely on us for honest, focused content that they can use to build sales, profitability and competitive advantage in their local markets.
- As an advertiser, your message in **Industrial Supply** or **Contractor Supply** gives you the prestige and credibility of appearing in the most trusted and respected magazines in the industry, bar none. Whether your company is 1, 10 or 100 years old, our decades of industry experience will work for you in ways no other publishers can approach.

ADD IT UP

When you add it all up—the industry respect, reputation, staff longevity, market coverage, our print and online media platforms and, finally, the support and endorsements of the most powerful associations in our industry—your choice is clear.

Make **Industrial Supply** and **Contractor Supply** magazines your media of choice and distributors will make you their supplier of choice.

» MECHANICAL REQUIREMENTS

A. SWOP STANDARDS APPLY

(Specifications for Web Offset Publications)

B. PREFERRED MATERIALS

Digital file complete with layout, fonts and supporting graphics files in a hi-res PDF format.

C. PDF FILES

PDF files are encouraged and should be created with the following specifications.

1. All fonts should be embedded.
2. No RGB or lab images should be used; make sure all images are 300 dpi CMYK.
3. **Density of tones 300% or less.** Densities higher have potential of blistering on press causing additional charges for down-time.
4. A rich black color should be used to avoid a washed-out appearance whenever large lettering, graphics, boxes or backgrounds are to print as black (*small text should remain 100% black to avoid registration issues on press*). **A rich black should also be used if the color overlaps any other graphic element to avoid ghosting of the overlap.** Use values of 40C/40M/30Y/100K to create a rich black.
5. **Full page ads must be provided with 1/8" (0.125") bleeds on all 4 sides.** Bleed size is 8.625" x 11.125" and the ad will be trimmed to 8.375" x 10.875".
6. Zip compression with down sampling set no less than 300 dpi.
7. Color management set to "none."
8. The "press" preset in the standard Acrobat will usually create an acceptable PDF for both Macintosh or PC.
9. After creating a PDF, **view the file with "Overprint Preview" to verify actual output.**

D. NATIVE FILES

1. Macintosh and Windows-based files are usable. **High resolution files placed by the customer must have all color corrections/alterations done prior to releasing the digital file to Direct Business Media LLC.**
2. All images need to be saved in CMYK mode. EPS or TIFF files are preferred. Do not compress images using JPEG or LZW.
3. Provide all supports related to the digital file (i.e., entire font families, hi-res images and logos). Any third party extension (i.e., Pasteboard) must accompany digital files. We cannot accept native Corel, Microsoft Publisher or PowerPoint files. These programs are not compatible with high-resolution output equipment. If you create files using one of these programs, please recreate in a program listed above, convert the file to a print-ready PDF.

E. DESIGN RECOMMENDATIONS

1. Spread copy should be laid out to avoid reading matter or any important part of an illustration running into the gutter. Please do not break type on gutter.
2. In preparing copy, restrict thin lines and small lettering to one color. Reproduce all reverse lettering with a minimum of colors. Avoid small letters with fine serifs when using reverse lettering.
